Udagama, Embilipitiya, Sri Lanka

Education

BSc (Hons) in Computer Science

2024 – Present

Sri Lanka Institute of Information Technology (SLIIT)

Sri Lanka

- Pursuing a Bachelor of Science (Honours) in Computer Science; relevant coursework includes Distributed Systems, Compiler Design, Software Engineering, and Database Management.

Secondary Education

2013 – 2022

President's College, Embilipitiya

Sri Lanka

Technical Skills

Languages	Java, Python, C#, JavaScript, TypeScript, C, C++
Frontend	React, HTML5, CSS3, Tailwind CSS, GSAP, Vite
Backend	ASP.NET Core, Spring Boot, FastAPI, Node.js, RESTful APIs
Databases	MySQL, MongoDB, SQLite, ZFS
Cloud & Tools	Microsoft Azure, Docker, Proxmox VE, TrueNAS, Tailscale, Apache ZooKeeper, Git
Concepts	DevOps, CI/CD, Distributed Systems, Clean Architecture, Zero-Trust Security, OOP

Projects

Enterprise DevOps Lab & Private Cloud — *Proxmox, TrueNAS, Docker, Tailscale*

github.com/J4N3i

- Architected a zero-trust private cloud utilising Proxmox VE for virtualisation and TrueNAS SCALE for ZFS-backed RAID 1 storage.
- Deployed a containerised microservices stack via Docker and LXC, encompassing Nextcloud, Pi-hole, n8n, and an Nginx Reverse Proxy.
- Implemented full network isolation using a Tailscale (WireGuard) VPN mesh, ensuring zero internet exposure for internal services while maintaining remote VS Code SSH access.
- Engineered an automated CI/CD pipeline leveraging GitHub Actions to deploy containerised web applications directly to Azure/AWS public infrastructure.
- Configured system observability using Prometheus and Grafana for hardware metrics, alongside Uptime Kuma for continuous service health monitoring.

Internova – Internship Matching Portal — *.NET 8, React, Azure, MySQL*

github.com/J4N3i

- Engineered a 3-tier architecture deployed on Microsoft Azure using an ASP.NET Core Web API backend and a React.js (Vite) frontend.
- Implemented JWT authentication, Role-Based Access Control (RBAC), and a 3NF normalised database on Azure Flexible Server.

DS-Pay – Distributed Payments System — *Python, FastAPI, ZooKeeper, SQLite*

github.com/J4N3i

- Designed and implemented a distributed payments prototype demonstrating leader election using Apache ZooKeeper, WAL replication, and idempotent transactions.
- Built a multi-node FastAPI cluster with Lamport logical clocks for event ordering and Berkeley-style time synchronisation across nodes.

TestLang Compiler (PPcom) — *Java, JFlex, CUP, Spring Boot*

github.com/J4N3i

- Developed a custom language compiler in Java utilising JFlex for lexical analysis and CUP for parsing to generate an Abstract Syntax Tree (AST).
- Integrated the compiler with a Spring Boot REST API backend to process, evaluate, and execute custom language scripts.

Exodus – 3D Interactive Environment — *Unity, C#, AI Navigation*

github.com/J4N3i

- Programmed custom AI agent behaviours and navigation tracking using Unity's baked NavMesh system.
- Integrated custom 3D models alongside dynamic interactive object scripts for an immersive interactive environment.

Personal Portfolio Website — *TypeScript, React, Vite, Tailwind CSS*

github.com/J4N3i

- Designed and built a modern, animated personal portfolio using React 18, TypeScript, and Vite, deployed live at janeeshagamage.me.
- Integrated GSAP ScrollTrigger animations, shadcn-ui component library, TanStack Query, and React Router for a polished, production-quality user experience.

Positions of Responsibility

Vice President

2025 – Present

Computer Science Student Community, SLIIT

Sri Lanka

- Provide strategic oversight for academic, professional, and student-led initiatives within the department.
- Liaise with faculty representatives and student leadership to support departmental objectives.

Value Delivery Team Leader

2024 – Present

AIESEC in SLIIT

Sri Lanka

- Lead a functional team responsible for the effective delivery of organisational programmes.

- Facilitate cross-functional collaboration to ensure timely execution of initiatives.

Batch Representative

2nd Batch, BSc Computer Science – SLIIT

- Serve as the primary point of contact between students and academic staff.
- Support coordination of academic schedules, events, and student communications.

Committee Member

Faculty of Computing Student Community (FCSC), SLIIT

- Contribute to faculty-level student initiatives and community engagement activities.

Member

Microsoft Club of SLIIT

- Engage in technology-focused workshops, seminars, and community initiatives.

Prefect

President's College, Embilipitiya

- Contributed to student leadership, discipline enforcement, and coordination of school activities.

Other Experience

Trainee

Bank of Ceylon (BOC)

- Supported daily banking operations, customer service functions, and administrative processes.
- Developed professional competencies including confidentiality, organisational discipline, and time management.

Soft Skills

- Leadership and Team Coordination
- Professional and Written Communication
- Organisational and Planning Skills
- Analytical Thinking and Problem Solving
- Time Management and Reliability

Awards and Achievements

- Special Merit Place – Innovation Competition, National Convention on School Students' Quality Circles (2018)
- Best Eight – Kumite, Sakura Open Karate Championship (2017)
- Placements at International and All-Island Karate Championships (2012–2016)

Referees

Mr. Jeewaka Perera

Senior Lecturer, Faculty of Computing (Computer Science)
Sri Lanka Institute of Information Technology (SLIIT)
