

Janeesha Vishwaprabha

Undergraduate in Computer Science

+94 77 959 3243 | janeeshagamage02@gmail.com | janeeshagamage.me | LinkedIn | GitHub

Udagama, Embilipitiya, Sri Lanka

Objective

Computer Science undergraduate with hands-on experience in cloud infrastructure, DevOps tooling, and distributed systems, seeking an Intern – DevOps/Site Reliability Engineer role at WSO2. Passionate about building reliable, production-grade cloud platforms, automating infrastructure, and applying SRE principles to real-world SaaS environments. Eager to contribute to high-performance systems while gaining mentorship from experienced engineers.

Education

BSc (Hons) in Computer Science

2024 – Present

Sri Lanka Institute of Information Technology (SLIIT)

Sri Lanka

- Relevant coursework: Distributed Systems, Compiler Design, Software Engineering, Database Management, and Algorithms & Data Structures.
- Batch Representative; Vice President, Computer Science Student Community.

Secondary Education

2013 – 2022

President's College, Embilipitiya

Sri Lanka

Technical Skills

Cloud Platforms	Microsoft Azure (deployed production workloads), basic understanding of AWS and GCP
Containerisation	Docker, LXC containers, Proxmox VE hypervisor, basic Kubernetes concepts
Infrastructure	Infrastructure-as-Code principles, Proxmox VE, TrueNAS SCALE, network configuration
Monitoring & Obs.	Prometheus, Grafana (dashboards, alerting, system metrics collection)
CI/CD	GitHub Actions pipelines (build, test, deploy to Azure)
Scripting	Python, Bash; RESTful API automation via FastAPI and Spring Boot
Networking	Tailscale (WireGuard VPN mesh), zero-trust network architecture, Linux/Unix systems
Incident Tooling	Jira (project tracking); familiar with ServiceNow concepts
Languages	Python, Java, C#, JavaScript, TypeScript, C, C++
Databases	MySQL, MongoDB, SQLite, ZFS storage

Projects

Enterprise DevOps Lab & Private Cloud — Proxmox, TrueNAS, Docker, Tailscale, Prometheus, GitHub Actions github.com/J4N3i

- Architected a **zero-trust private cloud** using Proxmox VE and TrueNAS SCALE; deployed a containerised microservices stack (Docker/LXC) with full **CI/CD pipelines** via GitHub Actions deploying to Azure – directly mirroring production SRE workflows.
- Configured **Prometheus and Grafana** for end-to-end system observability: metrics collection, custom dashboards, and alerting for infrastructure health monitoring.
- Implemented network isolation via **Tailscale (WireGuard) VPN mesh** for secure remote access, applying zero-trust security principles to a self-managed environment.

DS-Pay – Distributed Payments System — Python, FastAPI, ZooKeeper, SQLite

github.com/J4N3i

- Built a fault-tolerant distributed system applying **Apache ZooKeeper leader election**, WAL replication, and idempotent transactions – demonstrating deep understanding of reliability engineering and distributed consensus.
- Implemented **Lamport logical clocks** and Berkeley-style clock synchronisation across a multi-node FastAPI cluster, developing rigorous reasoning about distributed state management critical to SRE work.

Internova – Internship Matching Portal — .NET 8, React, Azure, MySQL

github.com/J4N3i

- Engineered and deployed a full-stack 3-tier web application on **Microsoft Azure**, implementing JWT authentication, RBAC, and a 3NF normalised relational database – demonstrating production-quality cloud deployment and operations experience.

TestLang Compiler (PPcom) — Java, JFlex, CUP, Spring Boot

github.com/J4N3i

- Exposed compiler functionality via a **Spring Boot REST API**, enabling automated script evaluation – analogous to model-serving or automation endpoints in SRE pipelines.

Personal Portfolio Website — TypeScript, React, Vite, Tailwind CSS

github.com/J4N3i

- Built and deployed a production website at janeeshagamage.me using modern tooling including CI/CD-style deployment.

Positions of Responsibility

Vice President

2025 – Present

Computer Science Student Community, SLIIT

Sri Lanka

- Provide strategic oversight for academic and student-led initiatives; liaise with faculty to support departmental objectives.

Value Delivery Team Leader

2024 – Present

AIESEC in SLIIT

Sri Lanka

- Lead a cross-functional team to deliver organisational programmes, ensuring timely execution and stakeholder alignment.

Committee Member

2024 – Present

Faculty of Computing Student Community (FCSC) & Microsoft Club of SLIIT

Sri Lanka

Prefect

2017 – 2020

President's College, Embilipitiya

Sri Lanka

Other Experience

Trainee

2022 – 2023

Bank of Ceylon (BOC)

Sri Lanka

- Supported daily banking operations; developed professional competencies in confidentiality, data handling, and organisational discipline.

Soft Skills

- Analytical Thinking and Problem Solving
- Self-Directed Learning and Curiosity
- Leadership and Cross-functional Collaboration
- Professional Communication (Written & Verbal)
- Reliability and Time Management

Awards and Achievements

- Special Merit Place – Innovation Competition, National Convention on School Students' Quality Circles (2018)
- Best Eight – Kumite, Sakura Open Karate Championship (2017)
- Placements at International and All-Island Karate Championships (2012–2016)

Referees

Mr. Jeewaka Perera

Senior Lecturer, Faculty of Computing (Computer Science)
Sri Lanka Institute of Information Technology (SLIIT)
